If you have not already seen, the Little League tournament moved
http://www.stltoday.com/news/local/metro/baseball-tournament-moved-from-bridgeton-following-concerns-about-radioactive-west/article_05d96240-af6a-55ec-a853-bc712047f42b.html

The uncertainty and/or confusion could start to have an adverse impact on the local (Bridgeton) economy.

Ben,

I am sharing a PDF of the USACE North County Record of Decision for St. Louis Sites. You will note page 32 already addresses concerns raised by Attorney General Koster today in his letter to Administrator Brooks about testing along the haul routes. It says:

"An intersection sampling effort was undertaken to identify any areas of radiological contamination, in addition to previously identified areas along transportation routes. Samples from 28 intersections on these routes between the HISS and the West Lake Landfill in western St. Louis County (231 samples) were collected and analyzed for Ra-226, Th-230, Th-232, and U-238. None of the samples collected exhibited radionuclide concentrations exceeding the proposed surface and subsurface soil remediation goals identified in this ROD."

Regards, Russ

Subject: Brief call

Ben, do you have a minute to chat later today or tomorrow? I have some time sensitive information to share.

Thanks, Russ

Apologies for brevity or type-o's. Sent from my iPhone
